Perfect Windows and Doors

Crafted in Australia, Celebrated Worldwide!

Perfect Windows and Doors, is an Australian owned company with a rich history rooted in Ballarat since 2005. Driven by a passion for delivering quality windows and doors that stand the test of time.

Part of the Perfect Windows and Doors brand DNA is leading edge innovation. The business is proud to be the only business in Australia that can deliver uPVC double glazed windows in large volumes, already servicing one of Australia's leading builders.

Our commitment to innovation:

With our commitment to a sustainable future, we have invested in the latest European manufacturing technology and products, to underpin the design principles of sustainable and energy efficient housing design. This investment can be seen in our new Perfect Windows and Doors. Whilst other window manufacturers have decided to persevere with aluminium, we have gone with the leading edge solution uPVC that has been a solution in the US and Europe since 1969.

Delivery and Service Support:

We understand a seamless experience is critical. That's why we offer delivery and service support across Victoria, ensuring your product is delivered on time. Backed by local office support in Ballarat for any of your windows and doors needs.

Our commitment to you:

What truly sets us apart is our unwavering commitment to understanding and fulfilling your needs. We pride ourselves on exceptional customer service as a cornerstone of our success.

For the Builder

The Builder's Choice

Policy changes implemented in May 2024, included the requirement for all homes needing to achieve 7 Star Energy Efficiency Rating. The policy changes have resulted in some builders turning to unconventional approaches to achieve compliance, including reducing window sizes, reducing window numbers and positioning windows in sub optimal locations in rooms. Perfect Windows and Doors delivers builders a solution to deliver compliant homes without sacrificing window locations, sizes and the number of windows in a home.

Our uPVC windows deliver up to seven times better thermal performance than traditional materials, significantly enhancing U-values and boosting home energy efficiency without compromising window size or design. Manufactured in Ballarat meeting Australian standards, our products are durable and comply with local conditions. Builders trust us for flexibility, offering expansive spans, a wide range of colours and textures, and seamless integration with diverse architectural styles. With short lead times and pre-fitted timber reveals for effortless installation, we help our builders stay on schedule.

Discover how we can help you exceed performance and style expectations in every build.

Energy Performance

Window Type	Uw	SHGCw
Aluminium Window – Single 3mm glass	7.4	0.77
Timber Window – Single 3mm glass	5.5	0.69
Aluminium Window – Double Glazed 3/6/3	5.3	0.69
Timber Window – Double Glazed 3/6/3	3.3	0.61
Thermally Broken Aluminium Window - Double Glazed 4/12/4	3.0	0.55
uPVC Window – Double Glazed 4/16/4	2.2	0.4
uPVC Window – Double Glazed 4/16/4 Low E	1.6	0.43
uPVC Window – Triple Glazed 4/14/4/14/4 LoW E	1.3	0.27

7 Star Advantage

Offering an unbeatable solution to achieve 7 Star Energy Efficiency for your home designs. Using our advanced uPVC technology, builders can maintain full window sizes across all orientations without compromising performance, ensuring energy efficiency and modern aesthetics.

Australian Made

Proudly manufactured in Ballarat, our windows and doors are 100% Australian-made. Built to meet and exceed Australian standards, our products ensure durability and performance in local conditions, supporting your projects with trusted, high-quality materials.

Customisation

From expansive spans to an extensive range of colours and textures, Perfect Windows and Doors allows builders and designers unparalleled flexibility. Bring your vision to life with windows and doors tailored to meet both functional and aesthetic goals.

Quick Delivery

Perfect Windows and Doors delivers direct to site with short lead times, with large stock holdings of standard product helping you stay on schedule without compromising on quality.

BAL Rated

Our IDEAL 4000® and smart-slide ranges are rated up to BAL 40, while the IDEAL 2000®, vario-slide, and lift-slide ranges are rated up to BAL 29. Perfect for homes in bushfire-prone areas, our products meet stringent safety requirements without sacrificing style.

Seamless Installation

Perfect Windows and Doors come fitted with timber reveals, allowing for smooth and efficient installation. We offer site glazing on windows and doors.

For the Homeowner

The Homeowner's Advantage

Perfect Windows and Doors allow you to make no compromises, so you can build your dream home. Select large expansive windows and doors to maximise natural light throughout your home, whilst still allowing you to achieve 7 Star Energy Efficiency compliance. Designed for year-round comfort, our windows keep your home warmer in winter, cooler in summer, and insulated from outside noise. Whether you're on a busy street or enjoying a peaceful neighbourhood, our windows create a serene indoor environment that enhances your quality of life.

Energy efficiency lies at the core of our designs, helping you reduce reliance on heating and cooling systems, reducing energy bills and minimising your carbon footprint. Crafted with uPVC frames and multipoint locking systems, our windows also provide superior security and peace of mind.

By reducing condensation and maintaining a healthier indoor climate, uPVC windows are a long-term investment in comfort, sustainability and value. Perfect Windows and Doors brings innovation and style to your home, making it more liveable, efficient, and secure for years to come.

Energy Efficiency

Enjoy year-round comfort with Perfect Windows and Doors' energy-efficient designs. Our uPVC windows reduce heat transfer, keeping your home warmer in winter and cooler in summer, helping lower your energy consumption.

Noise Reduction

Create a serene home environment with uPVC windows that reduce sound by up to 45dB. Perfect for loud neighbourhoods, our windows ensure a peaceful and quiet living space.

Security

Rest assured with the strength and durability of our steel-reinforced frames. Combined with multipoint locking systems, Perfect Windows and Doors offers unmatched security for your home.

Condensation Control

Say goodbye to unwanted condensation. Perfect Windows and Doors' double glazing and uPVC technology keep internal surfaces warmer, reducing moisture buildup for a healthier and more comfortable home.

Increased Property Value

Boost your home's appeal with energy-efficient uPVC windows. With growing demand for sustainable homes, this long-term investment keeps your property at the forefront of energy efficiency trends.

Environmental Benefits

Choose windows that are kind to the planet. Our materials from our manufacturing process are recycled, helping eco-conscious homeowners minimize their carbon footprint.
